

# LOUISVILLE POPULATION CENTER TRAINING

UAW HALL  
FERN VALLEY ROAD  
LOUISVILLE, KY

**Free Training**

**September 29 – October 2, 2014**

## Monday – September 29<sup>th</sup>

### **Overview of the Kentucky OSH Program**

**8:30 - 11:30 a.m.**

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, and safety and health topics currently being considered for future standards and policies.

### **Hazard Communication/Global Harmonization**

**1:00 - 4:00 p.m.**

This session covers the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

## Tuesday – September 30<sup>th</sup>

### **Injury and Illness Recordkeeping**

**8:00 a.m. - 12:00 p.m.**

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301, 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting. (Students will receive an OTI certificate for this class)

### **Noise and Hearing Conservation**

**1:00 - 4:00 p.m.**

This session covers the requirements of 29 CFR 1910.95 as it applies in General Industry. It will explain the composition of sound, the instrumentation and criteria used to determine excessive noise levels, the effects of noise on the hearing mechanism, personal protective equipment, and basic noise control methodology. A discussion of the hearing conservation requirements will also be discussed. These requirements include employee exposure monitoring, audiometric testing, hearing protection, employee training, and related recordkeeping.

## Wednesday – October 1<sup>st</sup>

### **Powered Industrial Trucks**

**8:30 - 11:30 a.m.**

This session covers the basic requirements of 1910.178. Attendees will learn about the basic aspects of powered industrial trucks (primarily fork lifts), operator training requirements, safe truck operations (including traveling & safety belts), equipment modifications, and associated hazards. This course will not provide operator certification under 1910.178(L).

### **Electrical Safety Related Work Practices**

**1:00 - 4:00 p.m.**

This session covers the requirements of NFPA 70E relative to 1910.331-.335. Attendees will be taught the basic elements of developing an effective electrical safety program. Topics include details of electrical hazards, protective equipment and tools for electrical work, energized and de-energized work procedures, elements of an arc flash hazard assessment, and definition of “qualified person.” Also includes a review of applicable OSHA case studies and the agency’s enforcement of applicable standards. Note: Course is not eligible for CEU credits towards electrical licensure. Attendees will not become a “qualified person” from only attending this course.

## Thursday – October 2<sup>nd</sup>

### **Crane Safety for Construction**

**8:30 - 11:30 a.m.**

This session addresses major changes which took effect on Nov. 8, 2010 and provide a basic overview of 1926, Subpart CC, including mobile cranes, tower cranes and certifications requirements for crane operators. Topics will also include requirements for riggers, electrical hazards, and crane inspections

### **Permit Required Confined Space**

**1:00 - 4:00 p.m.**

This session explains the regulations regarding entry into and working in confined spaces. Topics include confined spaces found in the workplace and the hazards associated with them, the regulatory impact of the 1910.146 standard, developing a written program, training employees, permit systems, rescue, and employee participation.
